MRS. MARY WEBB IS RELIEVED BY DEATH

Beloved Woman Succumbs After a
Lengthy Illness of Arterial
Sclerosis.

TRUE CHRISTIAN WOMAN
PASSES TO HER REWARD

Funeral Arrangements Delayed Un-
til Son's Arrival Today from
the South.

Mrs. Mary Webb, after a lengthy illness, died at her home on Pleasant street in this city Thursday afternoon at 3 o'clock. Although her illness had several months ago reached the acute stage, and her friends and family were in a measure prepared for the worse, still the announcement of her death yesterday was a shock to the host of friends she had made during her life long residence in Paris.

It falls to the lot of few persons to be so dearly beloved by as large a circle as was Mr. Webb. Her steadfast Christian character, combined with a cheerful and sunny disposition, made a friend of every one who knew her, and this friendship grew more stronger as the years passed. She was a steadfast Christian woman, having united with the Presbyterian church at an early age, and her devotion to her churchly duties, ministering to the sick and comforting in her sweet way those who were afflicted or troubled, caused her to become one of the most beloved women in Paris.

In 1857 Miss Mary Daugherty was united in marriage to Mr. Thomas Webb, who departed this life about forty years ago. From this union there were four sons, Ray Webb, who died at a nearly age; Chas. D. Webb, who preceded his mother to the grave about five months; Frank P. Webb and W. H. Webb, who survive her. The direct cause of her death was arterial sclerosis.

The funeral arrangements have not as yet been perfected, awaiting the arrival of Mr. F. P. Webb, who was in Knoxville at the time of his mother's death. Mr. Webb will arrive in Paris at 5:30 this morning. The funeral will probably take place on Saturday, due notice of the time of which will be given.

NEGRO WOUNDED THREE
TIMES BY ONE BULLET

As the result of an accidental discharge of a revolver in the hands of a negro called "Speck," Wednesday night at the roundhouse in the south yards of the L. & N., Henry Ford, colored, was wounded three times. The bullet from the revolver struck Ford in the right hand, and arm and lodged in his side. The wounds, though painful, are not of a serious nature.

CITY TO PURCHASE AUTO APPARATUS

By the unanimous vote of the City Council at its regular meeting held last night an order was entered to advertise for bids and specifications on an automobile chemical fire apparatus, and it is probable at the meeting on October 9 the Council will order the purchase of the new apparatus to be installed in the department.

Mr. Chas. Howard and son, Geo. Howard, of Lexington, representing the White Automobile Co., were present and the latter gave a short talk explaining the merits of the machine which is the output of one of the oldest concerns in the country. He said that at present there were four thousand of the machines in use and extended an invitation to the members of the fire committee of the Council to make a visit to the factory of the company in Cleveland to inspect the machines before making a purchase.

The members of the fire committee will go to Cleveland next week for the purpose of looking over the machines produced by the company, and will also inspect any others that may come to their notice.

A petition was presented to the Council, signed by a large number of property owners on Clifton Avenue, requesting that a fire plug be put in to afford protection to the property in that section of the city. A motion to have the plug placed on Clifton Avenue carried.

Mr. Ben Spears, at present engaged as a private watchman by a number of merchants, was granted the authority of a special policeman, which is to take effect as soon as he qualifies by furnishing the necessary bond.

—Mrs. Wallace Howe and Miss Roberts Meade, of Carrollton, are guests of Mrs. William Ferguson at her home near this city.

—Mr. and Mrs. Milton C. Browning, of Cleveland, O., who have been the guests of relatives in this city, returned Sunday to their home. They were accompanied by Mrs. Julian Frank, who will make them a visit.

—Rev. Dr. B. M. Shive will be in his pulpit at the Presbyterian church Sunday morning and evening at the usual hours. At the morning service "Morning Land," arranged for a quartet by Prof. Albert H. Morehead, will be rendered by Prof. Morehead, C. E. Webber, C. B. Mitchell and Dr. Frank Fithian.

I used them for some time and am now all right." Sold by all dealers. (August)

SOME FACTS AND FIGURES ABOUT BODY TEMPERATURE.

(New York Press)

It is well to know what raises and what lowers the bodily temperature. In the summer we all want to keep as cool as possible, and we should know what will tend not merely to make us feel cool, but really to be cool.

Except in sickness, when the temperature of the body is increased by many degrees and is called fever, we are never so hot as at the moment we are born. The temperature of a new-born baby is higher than that of its mother, raising to 102 degrees Fahrenheit, but during the first day it goes down rapidly as far as 97.5 and then raises again to a little more than the normal temperature of the adult. With this exception age does not change the temperature, which is in the normal man 98.6 on the average.

The temperature varies as much as 2 degrees in the twenty-four hours. The medium is 97.5, and is reached at about 4 o'clock a. m., while the maximum 99.6, is attained at 4 in the afternoon. It is notable that fasting or sleep does not alter these temperatures; those persons, however, who work at night and rest by day reverse the order of the variations in temperature. Thus bakers, who work at night, have the highest temperature at 4 a. m. and the minimum toward evening.

In the tropical countries, the average normal temperature is 100.4, slightly higher than in the temperate zones. In the arctic the normal temperature is lower. Norwegians, who live in the cold climate, have an average temperature of 97.7.

The variations are certainly due to the difference in the temperature of the air, and not, as some have thought, to difference in race, for Norwegians attain the same temperature as natives when they live in the tropics.

Muscular labor has considerable effect upon the temperature and may raise it as much as 2 degrees. One scientist observed that with normal exercise the temperature went up from 97.7 to 100. In certain exceptional cases the temperature rises even more. A runner has been found to mark 103 after a hard race. Intellectual labor also causes a rise in temperature. Wehls shows that a man sitting down to study hard with a temperature of 97 raises it 1 degree to 98 by forty minutes of brain work.

The maintenance of the temperature about a certain standard in the warm-blooded animals, notwithstanding the variations of the external temperature, prove the existence of some kind of internal regulator by which the animal fights against the tendency to increase or diminish his own heat.

The resistance of warm-blooded animals against cold is considerable. In Polar regions these animals—bears, seals, musk oxen, dogs, etc.—withstand temperatures of 30 degrees below zero habitually, and Nansen reports that he felt no great inconvenience when the temperature was less than 40 below.

The body uses two means of fighting cold. Diminishing the loss of heat by radiation and increasing internal combustion.

Diminution of radiation is brought about by the fur of the animal and by man's clothing. Besides, there is a constriction of the blood vessels, or a diminution of the irrigation of the skin and as a consequence decreases radiation.

Increase of combustion is brought about by increase of muscular activity, which, as we say, "keeps us warm," and by the eating of fats and other foods of high carbon content.

In summer or in tropical climates we have to fight increase of temperature which will arise from the invasion of the heat without or from overcombustion within. The organism overcomes heat by increasing radiation and evaporation. The dilation of the blood vessels causes the blood to flow to the surface of the body, and if the temperature without be not higher than that of the blood the loss by radiation is increased.

But it is especially by loss of water that the warm-blooded animals prevent the rise of temperature of the body. The cold produced by evaporation is great, for the loss of 1 gram of water (by perspiration and evaporation through the lungs) in 24 hours he loses 580 large calories—i. e., enough heat to lower the temperature of 116 pound of water 10 degrees.

This demonstrates the enormous value of evaporation through the skin and lungs and the necessity for keeping these organs in prime condition, especially during the warm weather, if we are to bear it in comfort. It is obviously, then, a crime against the body to overclothe it.

CLEANSER YOUR HAIR MAKES IT BEAUTIFUL

It Becomes Thick, Wavy, Lustrous, and all Dandruff Disappears.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

A Human Match Factory

The body contains phosphorus sufficient to make 453,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them.

But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nervous trouble—heart trouble. Pain is the hungry cry of starved organs. Put the liver, stomach and organs of digestion and nutrition into a condition of health. That is just what is done by

THE FAMOUS TRANSYLVANIA STAKE AT LEXINGTON

Lexington's wonderful trotting meeting this year opens on Monday, October 6 with the Walnut Hall Cup and the Futurity for two-year-olds as opening attractions. On Tuesday the program includes the Kentucky Futurity for three-year-olds, worth \$14,000, of which \$10,000 will go to the first horse. Good judges predict that this will be as good a race as was that of 1912 when Manrico was returned the winner after a memorable contest of six heats. On Wednesday comes the Tennessee Stakes, which will bring together the greatest field of free-for-all pacers ever gotten together on any track, viz Earl, Jr., 2:01 1-2, Braden Direct, 2:02 1-4, Directum I, 2:02 1-4, Longworth B, 2:02 1-4, Frank Bogash Jr., 2:02 3-4, Hal B., Jr., 2:03, Flower Direct, 2:03 1-4 and Walter Cochato 2:04. It is said that every horse eligible can pace a mile better than 2:03. Then, on Thursday, October 9, will come the world's famous stake, The Transylvania, which for more than twenty years has been regarded as more classic than any trotting event, not excepting the Charter Oak and the M. and M.

This year the Transylvania stands out stronger than ever in its history, for there are eighteen horses paid up and eligible to start, and it is certain that at least twelve will answer the bell. First in popularity is that beautiful little mare, Cheeney, that comes from Texas. She has raced since she was two years old, has started in more than fifty races, and has been outside of the money but three times. She is six years old now and her record is 2:04 3-4. It now looks as if her most formidable opponent will be Reubens 2:07 1-4, the winner of this year's M. and M. But there are others with which she will have to reckon, for it might happen that Dorah Medium, formerly in the stable of Ed Geers, will be the trouble maker, for she is so game that she must always be taken into consideration. Last year she was considered the gamest trotter that raced in the Grand Circuit. She has not started this year but it is said that her trainer has fitted her especially for The Transylvania, and as she is a mare of terrific speed as well as gameness she will have a lot of backers. Then there are Marigold, 2:07 1-4, Robert Milroy, 2:07 1-4, Gay Audubon 2:06 3-4, Lady Grattan, 2:08 1-4, Peter Thompson, winner of the Kentucky Futurity in 1911, Oakdale, 2:07 1-4, and others, including the recruits from the half-mile tracks, John Ruskin, Omar and Silk Hat. Certain it is that every horseman in the country is now talking of these great races at the Lexington track, many predicting that the Transylvania will be the race of the decade.

Babies need a perfect skin-covering. Skin eruptions cause them not only intense suffering, but hinder the growth. "Our baby was afflicted with a breaking out of the skin all over the face and scalp. Doctors and skin specialists failed to help. When Will Paris People Learn the Importance of It?

Backache is only a simple thing at first; But if you find 'tis from the kidneys; That serious kidney troubles may follow;

That dropsy or Bright's disease may be the fatal end, You will be glad to know the following experience.

'Tis the honest statement of a Paint Lick resident;

Lillie Colson, Paint Lick, Ky., says: "For five years I had kidney trouble. I suffered from pains in the small of my back, and when I stooped or lifted, sharp twinges darted through me. My back ached at night, and in the morning I was lame. I became easily and was nervous. Headaches and dizzy spells were common. My body bloated as if I had the dropsy. I finally began using Doan's Kidney Pills, and two boxes greatly relieved me. I intend to continue using this remedy until I am cured."

DAVID BELASCO'S GREATEST SPECTACULAR FAIRY PLAY

With a characteristic similitude that suggests Longfellow's immortal brook that "flows on forever," David Belasco's mental storehouse seems to be as inexhaustible as the poetic stream, and as year after year his productions are presented, each year more potent and appealing than the predecessor, the question arises: "Will this wizard ever reach the zenith of his art?"

His most pretentious production in many years, "A Good Little Devil," written by Rosemonde Gerard and Maurice Rostand, wife and son of the illustrious French poet, and adapted by Austin Strong, comes near being the final word in stage craft and picture, as critics have pronounced this truly wonderful production, "the crowning achievement of his eminently successful career."

"A Good Little Devil" is a fascinating fairy fantasy with the locale laid in romantic Scotland, where the fairies, brownies and kelpies abound and the story in tabloid tells a tale of a little boy who lived under the care of a persecuting, miserly old aunt, who was a believer in witchcraft. She dressed him in rags, made him sleep in the garret with the rats and half-starved him, while all the time she saved the money that was sent to her by a rich uncle for his bringing up.

One night the boy was visited by the fairies, to whom he tells his troubles, and discloses his love for Juliet, a blind girl who lives in the garden, with pet squirrels, rabbits, dogs, deer, etc., as playmates. The fairies promise him their aid, and his adventures, thwarting his enemies, his victory, and his marriage to Juliet, who has had her sight restored by the fairies, go to make a poetic gem such as could only emanate from the pens of such illustrious authors.

David Belasco has visualized this story by his magic touch into a play that turns back the wheels of time and awakens within the hearts of grown-ups, the tender memories of childhood and the hours spent at mother's knee listening breathlessly to the fairy tales of long ago. It also has a strong appeal to the children, who are for the time wafted into Fairyland by an excursion such as Belasco alone can conduct.

Mr. Belasco, with his customary consistency, brings to the Grand Opera House, Cincinnati, for the week commencing Monday, October 20, the entire New York production direct from his own Republic Theatre, also a notable company, including William Morris, Ernest Truex, Arthur Hill, Leonard Craske, Iva Merlin, Katherine Minahan, Robert Vivian, about sixty others, and little Mary Pickford, "Queen of the Movies", as she has been called, who plays "Juliet," the sweet-faced blind child.

OCTOBER SEVENTH IS THE REGULAR REGISTRATION DAY

Tuesday, October 7, is the regular registration and every Democrat owes it to himself and his party to be on hand promptly to secure his qualification to participate in the regular election in November.

Each year there are more or less who lose their right to vote by failing to comply with the law regarding registration. If a male citizen of legal age is within the city between the hours of registration—6 a. m. to 5 p. m.—and fail to secure a registration certificate, he is barred from participating in the regular election. If by reason of illness, illness in the family or absence from the city, a voter is entitled to register is prevented from so doing the law provides for a special registration.

Every Democrat who participated in the recent Democratic primary desires to see the party candidates succeed in the regular election. Let every Democrat be on hand the day of the regular registration and secure his certificate.

WINCHESTER BANKER IN JAIL FOR CONTEMPT

Because he refused to answer questions propounded to him by the grand jury conducting a probe into alleged election frauds in Clark county, David B. Hampton, cashier of the Clark County National Bank and a prominent citizen of Winchester, was committed to jail Tuesday by Judge Benton, of the Clark Circuit Court. A fine of \$30 a day was entered against Hampton until he agrees to answer the questions asked him. "I'll stay there until I rot," were the words of Hampton as he was conducted from the court room by Jailer Mullins. Tuesday morning, Wednesday morning he was brought into court and asked if he was ready to answer the questions. "No, sir," was the quiet reply, and he was again sent to jail. The affair has created quite a stir in the Clark capital owing to the prominence of the banker.

THEATRICAL.

"THE SOUL KISS."

The coming of "The Soul Kiss" to the Paris Grand on Saturday night, Sept. 27, is an event out of the ordinary in theatricals. It was considered the most successful musical comedy produced at the New York Theatre. The critics there united in extending to this production exceptional praise, both for the cleverness of its book and the tunefulness of its music. The work is the joint product of Harry B. Smith and Maurice Levi. The plot of "The Soul Kiss" is more consistent and reasonable than is usually found in musical plays and contains a number of novel surprises. The music of the piece is written in Maurice Levi's best vein. There are over a dozen tuneful numbers in the piece. No one can hear the melodious music without getting some pleasure out of it. Throughout the two acts of "The Soul Kiss" there will be found many new, novel and striking effects. Julian Mitchell is responsible for the staging of this pretentious musical comedy, which is massive and beautiful in its scenic investiture. A company of sixty fun-makers have been engaged. Altogether, "The Soul Kiss" is sparkling and vivacious enough to satisfy anybody.

COLUMBIA THEATRE

Today at the Columbia three of the usual first-class pictures will be shown. "When A Girl Loves," a Pilot drama which brings before you one of the sweetest and tenderest of stories; "His Crooked Career," a Keystone comedy of the kind all like; and "The Largest Boat Ever Launched Sideways," scenic split reel; "Dead Man's Shoes," an American, a drama which tells a story of human interest and pathos. Mr. Percy Reed, baritone singer, is still popular with the crowds that visit the Columbia.

MR. REED'S PROGRAM.

Beginning Monday, Sept. 29, Mr. Percy Reed, the popular baritone singer at the Columbia, by special request of a number of patrons of this theatre, will sing a number of the old time songs. This will be a rare treat to hear songs of other days and which the hearing of these old songs again will call back to mind some sweet memories of long ago. On Monday night Mr. Reed will sing "Son of the Desert," Tuesday, "When You and I Were Young, Maggie," Wednesday, "Forgotten," Thursday, "Silver Threads Among the Gold," Friday, "Annie Laurie," Saturday, "In Old Madrid." In connection with this list of old fashioned songs you will see each day three of the best of moving pictures.

—Miss Margaret Tingle and Mr. Percy Frazier, a handsome couple from Lexington, came over to Paris on the 3:45 train Tuesday afternoon and were quietly married by Rev. Dr. E. M. Shive at the manse on Duncan Avenue.

The bride was formerly from Woodward, near Cincinnati, and has a very pleasing personality. The bridegroom is a popular young business man in Lexington.

The reason for coming to Paris for their marriage ceremony was to avoid the publicity and confusion of a church or a home wedding, and they preferred to be married in this quiet manner. The couple returned to Lexington on the 5:15 train.

KISER-DAVIS.

—At the residence of the bride's parents, Mr. and Mrs. James Kiser, near Kiserston, yesterday afternoon, Miss Jimmie Bell Kiser was united in marriage to Mr. Elbert Lusk Davis, of Berea, Ky.

The wedding was a quiet affair, only the relatives of the contracting parties and a few invited guests witnessing the ceremony, which was performed in a very impressive manner by Rev. J. S. Sims, of the Paris Methodist church.

The bride is one of the most attractive and popular young women of that community and until recently was an efficient teacher in the county schools. Mr. Davis, who is a member of one of the most prominent families of Berea, is a popular young business man of that place.

Immediately after the ceremony and congratulations the couple left on the afternoon train for Cincinnati, from which place they will go to several points in the East and returning will be at home to their friends after October 15, in Berea.

CROWELL-CHANSOR.

—The Mayeville Ledger of Tuesday contained the following account of the marriage of Mr. I. F. Chanslor, a former Bourbon county boy to Miss Lucille Crowell, one of Maysville's most popular young women:

A pretty house wedding occurred this morning at 9 o'clock when Mr. Isaac F. Chanslor and Miss Lucille Orr Crowell were united in marriage at the home of the bride's parents, Mr. and Mrs. Simon Crowell, on Walnut street, in the presence of a score of guests.

At the appointed hour, Miss Adeline Lauby sang "O Promise Me," which was an effective introduction to the wedding ceremony. Following this the bridal procession began when Miss Ada Emmitt played the wedding march from Lohengrin. The minister, A. F. Stahl, who led the way was slowly followed by Dr. William Crowell, of Toledo, O., the bride's brother, and Miss Helen Marshall, of Upon reaching the center of the room, they awaited the coming of the bride, who was accompanied by the groom, Little Miss Thelma Brunson. Politt, a cousin, preceded the bride and scattered rose petals in her way. The words of the minister were appropriate and the ring ceremony was impressive.

The bride was attired in a traveling suit of blue with hat to match. She carried a shower bouquet of Bride's roses and Lillies of the Valley. A white coat suit was worn by the maid of honor. She also carried Bride's roses. The little flower girl wore white silk trimmed with lace. The house was tastefully decorated with ferns and Golden Rod. A bank of ferns formed a back ground for the bride and groom and their attendants during the ceremony.

Very shortly after the ceremony, Mr. and Mrs. Chanslor left on their wedding trip. They will stop at Nashville and New Orleans. Upon their re-

turn they will be at home to their many friends.

The bride was the recipient of many costly presents. She is one of the most popular young ladies in Maysville.

The groom is a successful druggist in East Second street. They both have a wide circle of friends and are very popular in this city.

Mr. Chanslor is a son of the late Mr. I. F. Chanslor, of Millersburg, and for a time was engaged as a pharmacist at the drug store of Dr. W. T. Brooks, of this city. After the wedding Mr. and Mrs. Chanslor came to Paris in an automobile where they were the guests or friends before their departure on their Southern trip.

TANBARK QUEEN IS PRIZE MARE, HAZEL DAWN

Kentucky standards for saddle horses and horsemanship soared to a new high record in showing at the State Fair for the \$2,000 stake, where Hazel Dawn was crowned queen of saddle horses in Kentucky. Never in the history of Kentucky has such a magnificent field of saddle horses competed in the same ring.

Stars from three States tried to lower the colors of the Shropshire mare, which has captured the blue tie in the premier event of the country for saddle horses, but they were unsuccessful. From the time the eleven horses entered the ring the ten thousand visitors cheered Hazel Dawn. The little mare never made a greater show. Seemingly she realized that her greatest of ring battles was before her. Responding to the slightest touch of Billy Shropshire's hand she changed perfectly and with consummate ease from walk to trot, to canter to racking, every gait was at her command.

KANSAS CITY SCIENTISTS SAY COL. SWOPE WAS POISONED

A dispatch from Leavenworth, Kansas, says that discoveries made by chemists and bacteriologists at the University of Kansas prove positively that hydrocyanic acid cannot be formed naturally in the human stomach, and that where it is found in the stomach of a dead man it must have been administered before death.

This fact conclusively proves, they assert, that the hydrocyanic acid found in the stomach of Col. Swope, of Kansas City, was administered before death. Investigations were made by Profs. E. H. S. Bailey, H. P. Cady and H. W. Emerson, chemists, and Profs. C. C. Young and C. Lawson, bacteriologists. Cady, Bailey and Emerson were State witnesses in the last Hyde trial.

ONE CASE AGAINST PHOENIX HOTEL IS DROPPED

The case in the Federal Court at Frankfort against the Phoenix Hotel Company of Lexington, charged with receiving quail from Chicago in packages not plainly marked so as to disclose the nature of their contents, was submitted to Judge Cochran Wednesday morning, but the Court gave counsel for the defense time to produce authorities and the manner of marking the packages. It was testified for the defense that these packages were marked with a lead pencil in ordinary handwriting, showing exactly what was in them. Judge Cochran indicated that he thought this was not sufficient marking to satisfy the law, but said he was open to conviction on the subject. The charge against the hotel of having in its possession game birds for sale was dropped by the prosecution.

CARLISLE MAY HAVE WATER WORKS SYSTEM

A waterworks system may be installed in Carlisle in the near future. At the next meeting of the City Council, it is said, an engineer will be directed to make plans and specifications. A large concrete reservoir is proposed to hold the water supply. The sentiment of the system is at fever heat owing to the near water famine that has prevailed in that city for the last few months. The great increase in the amount of taxable property in that city since the last waterworks proposition was submitted gives reason for believing it will be built.

HOWARD RECOGNIZED IN TAX SUIT PROSECUTION

The suit of the Commonwealth vs. the Burley Tobacco Society, instituted in the County Court to recover back taxes upon unlisted property of the plaintiff from the formation of the pool in 1909, which was called Thursday and passed until Friday morning, was continued until October 3.

Upon the grounds that John T. Collins and S. K. Nichols, witnesses in the case, were absent the plaintiff entered a motion to have the case continued, which was granted by Judge Dundon.

The suit is to recover taxes on approximately \$350,000 worth of property and was instituted several months ago by Mr. Howard.

The morning session of the court was occupied with argument of the question of the right of John Howard, ex-revenue agent, to participate in the prosecution of the case. Judge E. C. O'Rear and Messrs. H. T. Duncan and Dwight Pendleton presented the position of the defendant, and Judge Lewis Apperson and Mr. Howard himself supported the contention that his right to participate had not been abrogated through his resignation from the office of revenue agent. County Attorney George Batterson also appeared as associate counsel for the plaintiff.

The question was brought up when the attorneys for the defense filed a supplemental answer reciting that since the filing of the statement and the assignment of the case for trial, John Howard, who brought action in the name of the Commonwealth, had resigned as revenue agent for the State at large, and asking that the court require that another revenue agent or the sheriff, either of whom would be qualified to prosecute the case, be substituted. To this the plaintiff demurred.

In the argument Judge Apperson and Mr. Howard took the ground that the law required only that the agent institute the action; that it was he duty of the county attorney to prosecute the case; that the actual plaintiff was the State, and that resignation or death of the revenue agent did not necessitate a change of pleadings or a substitution. Mr. Howard said that it was true he had resigned and was now a private citizen practicing law, but that the statutes provided that he should participate in the actions he had brought before resigning and secured his right to the fees in the event the case should be decided for the Commonwealth. He further held that his bond continued binding until the case should be disposed of.

During their argument upon the cases and sections cited by the plaintiff, the counsel for the defendant argued that although the actual plaintiff, the Commonwealth could not speak except through some authorized representative; that no one save a revenue agent or sheriff could institute an action for back taxes and either the one or the other must direct such suits; that the duty and authority of county attorney ended with presenting the cause and that he could not settle such a suit, and while the action did not abate with the resignation of the agent filing it, yet it must be prosecuted by an authorized party whose bond afforded protection for the defendant.

It was held that the bond of Mr. Howard could cover only acts prior to the time of his resignation and could not anticipate further obligations such as the defendant's court costs subsequent to his retirement as a public official. Another point made was that the defendant was entitled to have as opponent one bound by the oath of a public official bearing the responsibilities and obligations of a public official, whereas Mr. Howard was now only a private citizen, without the right to settle the case should a settlement be desirable; furthermore that the county attorney could not appear for an ex-official. Mr. Howard's sole interest in the case now, it was argued, was hope of securing the fees amounting in this case to \$3,500.

As to the matter of compensation, it was argued that the fees provided were for services involved in causing omitted property to be assessed and not for the formal act of filing statements, and that the agent who might perform the work or prosecuting the action would be entitled to the compensation should property be assessed. Mr. Pendleton declared that Mr. Howard had filed forty-five suits against the Burley Society in which he anticipated receiving fees amounting to near two hundred thousand dollars, but that the service contemplated by the law was yet to be performed. The bond provided for the faithful performance of duty as a public official, and duties terminated immediately when he ceased to be a public official. Judge Dundon sustained the demurrer to the supplemental answer, saying that the case should be heard on its merits with the State as plaintiff in the action, irrespective of the resignation of Mr. Howard.

TAKES SEVEN YEARS TO GET NOVEL.

An American, who is a literary agent in London, recently applied for a ticket to the reading-room of the British Museum, and, after relating the story of his life, getting two "householders" to vouch for him and going through other formalities, eventually received it, about a month having passed in the meantime. Then, wishing to verify some point in a novel published several weeks ago, he went up to the museum and asked for it, but found he could not wait until it could be supplied. This, he was informed, would be in seven years' time.

It would have been much simpler had he desired to discuss an educational work; in that case he would have had to wait only seven or eight weeks, while in the case of a newspaper from fifteen to sixteen months must elapse between the date of publication and that at which it can be consulted at the British Museum. It seems that the newspapers that are received there, and this means every one published in Great Britain, are kept in storage for 12 months and then bound, a process which occupies three months or so, after which anyone who has a reader's ticket can have access to them.

The reason given by the museum folk for their rule regarding novels is a good one, though the period for which it is enforced seems a bit excessive. It appears that whereas the big reading-room of the museum is intended for students and students only, all sorts of folk, upon becoming possessed of readers' tickets, proceed to apply for the latest novels and to settle down for a comfortable morning or afternoon's reading. To put an end to this the new rule was framed, but when my friend asked, "Why seven years?" the only reply that the museum officials could vouchsafe was the March hare's historic query, "Why Not?"

FASHION WEEK

WILL BE MOST REMARKABLE IN HISTORY OF MERCHANDISING IN THE QUEEN CITY.

Main Idea of Fashion Week Is Not To Sell Merchandise, But To Establish the Fact That Cincinnati Is the Real Fashion Center—All Merchants Are Co-Operating To Make Success of Movement.

Cincinnati.—(Special).—What a grand thing it would be if everyone within the district of commercial Cincinnati could see the preparations being made to make Fashion Week in Cincinnati the most remarkable week in the history of retail merchandising in the Queen City.

During Fashion Week—September 29 to October 4—will be displayed in the stores of Cincinnati's progressive retail merchants the very newest, smartest, most authoritative gems of merchandise gathered from the world's markets. Everything that any one ever buys in a retail store will be displayed in windows trimmed most magnificently, for the window trimmers are competing for money prizes. And the merchants, you know, are even more zealous than the trimmers, for all are competing, one with another, in an effort to display the very smartest things in merchandise.

The main idea of Fashion Week is not to sell merchandise; the primal, basic idea is to establish beyond doubt the fact that Cincinnati is the real fashion center in the district within a radius of 150 miles of Cincinnati.

This is the first time in the history of Queen City retail merchandising that the merchants have come together to make an exhibition of their wares simultaneously. Heretofore there have been individual openings, and this would afford the visitor or the shopper merely the opportunity to see one display. Now the visitor can see, during Fashion Week, every store exhibiting its choicest, newest merchandise, embellished with everything that makes beautiful the displays, all at the same time.

Fashion Week means that every retailer, whether he sells footwear, pianos, sporting goods, apparel of any kind—in fact, whatever is retailed will be displayed to the best advantage during the week. There is an interesting story connected with the selection of Fashion Week as the name to describe this event in merchandising. The merchants of Cincinnati debated long about the name for the week, some fearing that the word "Fashion" might be misleading in that it would create the idea that the week was to be one merely for the exhibition of apparel.

But this is not the case at all. You can see everything that any retail store carries during Fashion Week. Every merchant, whatever he handles, has made every effort in his power to make his displays most comprehensive, and during the week there will be thousands of special bargains offered in scores of stores, and one can visit Cincinnati during the week of September 29 to October 4, convinced that a harvest of bargains is to be had. Don't forget the dates; see the Cincinnati papers for announcements of this week that means so much to your prettiness and your purse.

The American colonists at Los Mochis, Sinaloa, Mexico, have established a depot at Mazatlan for the sale of alfalfa produced on their farms. This will put an end to importations from California, which in the past have been of some importance, and will furnish the colonists a long-needed local market for their alfalfa crops.

Minnesota's iron ranges are producing more than all the other States combined, last year's figures being almost 62.5 per cent. of the total output of the country.

IF HEADACHY, DIZZY, BILIOUS, "CASCARETS."

Get a 10-cent box now. You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A ten-cent box from your druggist will keep your liver and bowels clean, stomach sweet, and your head clear for months. Truck Replaced Three Teams

In eleven months this three-ton KisselKar Truck covered in actual service 4,760 miles at a fuel cost of \$1.08 per day. Manned by a driver and one helper, it replaced three teams of horses. The average daily burden was 37 17.20ths tons—most carried an average load of four tons—one ton overload—but in the entire period named, was laid up only two and one-half hours for repairs.

"We can recommend the KisselKar Truck and assure that it lives up to its guarantee," writes Thomas E. Fleischer, manager of the Sheboygan Lime Works.

Two and one-half hours for repairs, carrying over 37 tons per day is a record worthy of notice. KisselKar Trucks cost little to maintain and are economical to operate because the problem is solved in KisselKar construction.

Note these striking KisselKar features—Simple engine—easy to operate—reserve power—excess capacity—differential lock preventing one drive wheel absorbing all the power on slippery places, and stalling the truck—four speed transmitters geared up—fourth speed permitting high speed when desired without racing engine; 15 to 20 per cent. lower fuel consumption than average trucks—light spring suspension for power plant, heavy spring suspension for load—gauge that weighs load—greatest accessibility—easy control—larger brake drums, and extra powerful brakes—special bodies designed to meet every need.

KisselKar Trucks

1500 lbs.-1-2-3-4 and 5 Tons

In the range of capacity, 1500 lbs. to 5 tons, you can find just the type that fills your requirements—and with the KisselKar Truck goes the KisselKar Service, which is the manufacturer's guarantee of satisfaction.

KisselKar Service means taking off your hands all of the mechanical details. A special service building is maintained in this city for the benefit of KisselKar owners. The KisselKar service is a broad and comprehensive arrangement between manufacturer and owners that cares for the car, maintains efficiency, retards depreciation and minimizes upkeep. This service is a valuable consideration in the purchase of a power wagon. Investigate it.

Ask us to analyze your present horse haulage as compared to motor haulage. The result will be interesting.

BIBLE CLASS UNDER PROF. HENDRICKS HAS GOOD START

The Men's Bible Class of the Christian church had a splendid beginning last Sunday under the instruction of Prof. T. A. Hendricks. The class is exceedingly fortunate in securing the services of such an able and practical teacher for an instructor. Those who failed to take advantage of the opportunity to get a practical lesson from the study of Moses and Aaron as leaders of the people were the losers by so doing.

One of the strong points brought out in the study of the lesson was the difference between "A leader who really leads the people" and "A leader who waits to see which way the people are going and then jumps in the front ranks."

It is hoped that many more of the men of the community will give encouragement to the work by coming out Sunday morning at 9:30 and enlisting in the cause.

A special appeal is made to the officers of the church to lend the influence of their presence.

OFFER OF \$10,000 FOR PETER BILLIKEN TURNED DOWN

A dispatch from Washington C. H., Ohio, Tuesday, says: "Warren A. Bacon, a local horseman, formerly of Paris, Ky., owner of Peter Billiken (2:10 1/4), winner of two Grand Circuit races at Detroit the past week, has refused an offer of \$10,000 from the Russian Government for the chestnut son of Peter the Great. (2:07 1/4). Mr. Bacon said he had no idea of parting with the Grand Circuit winner. Peter Billiken was trained on the Washington C. H. track this spring. He has won a number of purses in Canada and Maine events and is entered in others still later in the season."

Peter Billiken has made a remarkable record this season on the Grand Circuit and it is estimated he has won more than \$10,000 in purses for his owner since the trotting season began.

"ROMANCE OF BILLY GOAT HILL"

Mrs. Alice Hagen Rice has won another triumph in the unqualified approval on the dramatized version of her latest novel, "Romance of Billy Goat Hill," its first performance in Lexington was at the new Ben All Theatre last night.

The plot, as in "Mrs. Wiggs," is laid in Louisville, although the sections of Louisville, in which these scenes are laid chance to be on the other side of town. The play continues in its high level the humor that made "Mrs. Wiggs" so delightful to read.

At its opening performance in Louisville Monday night Mrs. Rice had to bow her acknowledgment to the cheering assembly and later Miss May Buckley, the gifted little actress, who plays the leading role, was compelled by the insistent applause to give vocal expression to the satisfaction of both author and company.

The scenic presentation is most pleasing. The opening act discloses a squalid version of the famous Hill now traversed by the East Walnut car line, with the tumbledown shacks, a saloon, and a saloon keeper's house. Posters on the fence announce the Kentucky Derby at the Churchill Downs, and a sign board points the way to Louisville, for the story is related of a time when the city had not crept eastward over the bottom and up the slope. In the distance can be seen the heights along the river and Thornwood, the colonial home of Col. Bob Carney and his charming little daughter, Miss Lady, which is so admirably taken by Miss May Buckley.

The charm of her work was unfeeling in its portrayal of the character, natural, delicate and appealing, with grace and beauty she moved sweetly through the play, winning the hearts of all.

"A Romance of Billy Goat Hill" has been dramatized by George E. Parker, and it scored an immediate success in its stage form. It will be the offering at the new Ben All Theatre today and tomorrow with a matinee tomorrow, featuring Miss Mae Buckley in the leading role, together with a company of well balanced talent with which no flaws can be found in their presentation of the delightful and absorbing story.

YOU WILL BE PLEASED.
